Multi-Use Wire Basket

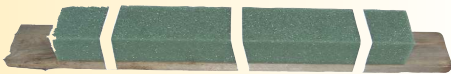

WGB01 **Grave Blanket Wire Basket 8" Round**
 Ask for direction sheet when ordering.

"Make grave blankets or hanging baskets with the same form!" One of the fastest, simplest ways to make a grave blanket. It's done by inserting evergreen branches thru the basket from opposite ends and a nice big bow in the center (finished size from 3-6' depending on bough length). **OR** turn it over, add foam, insert fresh greens and a handle (see below). 8" round (finished size 12" to 24" tall). **Easy to stack and transport.** *Only use styrofoam insert when making hanging basket.

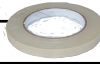

Styrofoam Based Grave Blanket Supplies

Styrofoam Base Style Blankets are taller when finished 14" to 20"

Tape Styrofoam to board for support, cut greens then insert into styrofoam working from the ends to the center.
