

Fresh Christmas Greens (Tips)

Fresh Fragrant Balsam Fir or Fraser Fir Tips

12-19" average length

One box will make up to five wreaths. For door size wreath, tips should be snapped (or cut) in half or thirds and tip ends placed on top of remaining stems. Pieces needed per clamp depends on desired wreath thickness.

Mixed Greens - Balsam, Cedar, & White Pine

For mixed wreaths, every other clamp should have balsam fir on the bottom, then Cedar (light side up) and finish with white pine on top.

We ship fresh every Monday after October 1st, to ensure freshness when they arrive. Please order by the previous Thursday. We may be able to ship greens earlier (inquire). No orders will be accepted for Cedar after Nov. 20th.

Please plan your production to receive material early enough to allow the time necessary to make your wreaths, swags, garlands, etc. **NOTE:** Michigan greens should be ordered two weeks in advance whenever possible. Not available in **CA**.

Remember, fresh greens need to be kept away from heat and direct sunlight.
