NEW Topiary Netting

Here's an easy way to make hanging balls using 7" or 8" Styrofoam balls. Take a piece of 8" mesh, tie a double knot on one end, drop the ball inside and tie another double knot up against the ball. Tie a third knot at the top end (to hang it by). Insert greens thru the mesh & into the ball. Start inserting greens at the bottom of the ball and work toward the top.
